Calm Your Christmas

Wes Hostetler, *Johnson's East Store Manager*

Ahh ... the calming aroma of fresh greens. Once again it's that time of year to add this festive look and relaxing fragrance to your decor. My first thoughts turn to how warm a home feels when decorated with fresh greens, providing the "sit ... relax ... enjoy the moment" kind of atmosphere we want during the Christmas season.

Fresh greens can be used in a wide variety of ways. Favorites are front door swags and wreaths, fireplace mantelpieces and garland. Whether you keep it simple or like to be creative and colorful, we can meet your needs. We have an excellent selection of Christmas greens, with or without added decorations. New this year at Johnson's are basket centerpieces. We also have a coordinated trio with matching basket, wreath and mantelpiece (see below)!

At Johnson's we don't play favorites! We also have a great selection of artificial greens. We have wreaths, sprays and garland in pine, cedar, noble fir and mixed. To add color, we have a variety of berries and cones.

Come in this Christmas season to check out our new fresh greens, ... and artificial greens, too. I know you'll be glad you did. ■
