Gardening with Kids

Jan Decker, *Junior Gardeners' Club Coordinator*

Many parents find gardening an excellent way to spend quality time with their kids, teach lessons such as environmental awareness, and introduce the joys of nature.

Gardening is an activity that allows each family member, with different talents and abilities, a way to contribute in creating something enjoyable together.

If you haven't started gardening with your child, fall is an ideal time to start.

Besides being a beautiful time to be outdoors, growing conditions are great and there are many fall projects to choose from. It's the perfect time to plant trees and shrubs.

Since most kids love to dig, they can just pitch right in. Fall is also the season to reseed the lawn. A full-scale renovation is probably not a job for children, but re-seeding small areas can be fun for kids, and it will help you to convince them to stay off the newly seeded areas. There are also many fall vegetable and flower garden choices. Come by and see all we have to offer at Johnson's. Our staff will be happy to help with recommendations to fit your needs.

Bring the kids with you to Pansy Mania DaysSM, September 19-22, so they can pot a pansy to take home for their own garden!
